The company was established in accordance with the agreement signed between the «DongJu Industrial Co., Ltd. » from Korean side and JS «UzAvtoSanoat» from Uzbek side and according to the decree of the Cabinet of Ministers of the Republic of Uzbekistan №191 in 1995. The official opening of the company was held on April 3rd, 1999.

The purpose of creating JV "Uz-Dong Ju Paint Co" is to provide:

- paint materials and means of surface preparation for the automotive industry of Uzbekistan
- constructional and industrial paint materials in the markets of Uzbekistan

The total area of the company is 56 104,6 m<sup>2</sup> . The company is expanding and there are more than 600 people are employed. Today, there are several workshops in the plant:

- automotive paint materials workshop
- industrial and construction paint materials workshop
- workshop for the production of sealants for automobiles
- workshop for production of pretreatment paint materials
- tin cans and metal drums production workshop
- workshop for production of weatherstrips
- workshop for production of sport shoes

In 2011 weatherstrips producing workshop started supplying weatherstrips for Matiz, Nexia, Spark and Lacetti models of car produced by JS "GM-Uzbekistan".

The use of high quality raw materials, the Korean production technology and professional staff enable the company to produce high quality products.

Moreover, the production of sport shoes was organized with the purpose of diversification. In January 2016 the new workshop started its activity. The sports shoes are for children, women and men, for fans of sport and healthy lifestyle, for those who prefer casual and sport style. They are very comfortable and meet the quality and price requirements of customers.

Company products: industrial and constructional paints materials, automotive paint materials and means of surface preparation, weatherstrips, sports shoes.
