With the aim of expansion of productive capacity of bench and roofing sandwich panels, enterprise LLC “SENDVICH PANEL” for realization of three-layer panels with heater made of basalt mineral wool board production was established in July, 2009.

In the course of project realization two processing lines were installed, first for production of sandwich-panels with project capacity equals 190 th.m2 of items/year, second for production of mineral wool heater made of basalt with project capacity equals 10 th. tons of refined basalt/year and heater volume equals 30 th.m3.

For today LLC “SENDVICH PANEL” is operating at the market of Uzbekistan.

Enterprise production - three-layer panels with heater made of basalt mineral wool board.
