

About Company

[Home](#) About Company

"Uzavtosanoat" JSC is a company that controls automobile manufacturing enterprises and automobile localization and auto components enterprises. In addition, the structure of the company includes a dealer network in Uzbekistan and the CIS countries, educational institutions, a leasing company and enterprises for the production of consumer goods.

"Uzavtosanoat" JSC created on the initiative and under the leadership of the First President of the Republic of Uzbekistan Islam Karimov, over the years of independence has become a symbol of the creative potential of the economy of Uzbekistan.

Uzbekistan today is the only manufacturer of a full range of passenger cars and commercial vehicles in Central Asia. Currently, there are over 85 enterprises operating in the industry, which are part of the company, as well as cooperation with more than 200 foreign enterprises and organizations. Today "Uzavtosanoat" JSC represents more than 26 thousand jobs.

The automotive industry in Uzbekistan is already much more than a leading manufacturing sector. This is a reality that we are proud of, a success that the world has recognized. And it all began 24 years ago - with the construction of the first automobile plant in the Central Asian region in the city of Asaka, Andijan region.

In 2004, the Uzavtosanoat Association was transformed into a joint-stock company, and then a joint-stock company, to improve the efficiency of production management. Today the company unites dozens of large and medium-sized enterprises, including companies with foreign capital from the Republic of Korea, Italy, Germany, the USA, Japan, and others. Among them are enterprises of both the automotive industry and production that produce consumer goods.

One of the fundamental factors in the efficient operation of the industry is the well-built structure of Uzavtosanoat JSC, which is subdivided into the following areas.

Main manufacturing companies:

"UzAuto Motors" JSC (including a branch in the Khorezm region) "SamAvto" LLC "Uz Truck and Bus Motors" JV LLC "UzAuto Motors Powertrain" JSC "SamAuto" JV LLC "UzAuto Trailer" LLC Jizzakh Automobile Plant LLC

Component suppliers are localization companies that produce import substitution components for the industry.

Sales and service companies.

"Avtosanoat Invest" LLC

"Uzavtosanoat Leasing" LLC Leasing company.

Educational institutions:

Turin Polytechnic University in the city of Tashkent (including the academic lyceum at the university)

Particular attention is paid to the education and training of specialists capable of improving domestic cars at the level of modern requirements. The opening of a branch of the Turin Polytechnic University in Tashkent has become a new stage in improving the training of personnel for the automotive industry. It trains specialists in mechanical engineering and automotive engineering, information and communication technologies, energy, architecture and construction. A worthy shift is also being trained in specialized Asaka and Samarkand automotive colleges, whose graduates successfully undergo practical training and become employees of the enterprises of Uzavtosanoat JSC.

Today, the Uzbek auto industry is one of the most dynamically developing sectors of the country's economy, an example of the export ability of Uzbekistan and plays an increasing role in the development of the country's foreign economic activity.
